

MANAGEMENT REVIEW · 28 OCTOBER 2026

Complaints and FIRs: the backlog is concentrated, aging, and uneven

Across ACC, AHTC, AMLC, CBC, and CCC.

Made with GAMMA

EXECUTIVE SUMMARY · AS ON 28 OCTOBER 2026

The backlog is concentrated in AHTC and ageing in enquiries

01

9,302

Complaints disposed

50% of 18,774 complaints registered since January

02

8,011

Complaints pending

43% of the total; 4,860 of them at enquiry stage

03

78%

Share in AHTC

14,699 complaints and 3,350 FIRs, the largest workload

04

48%

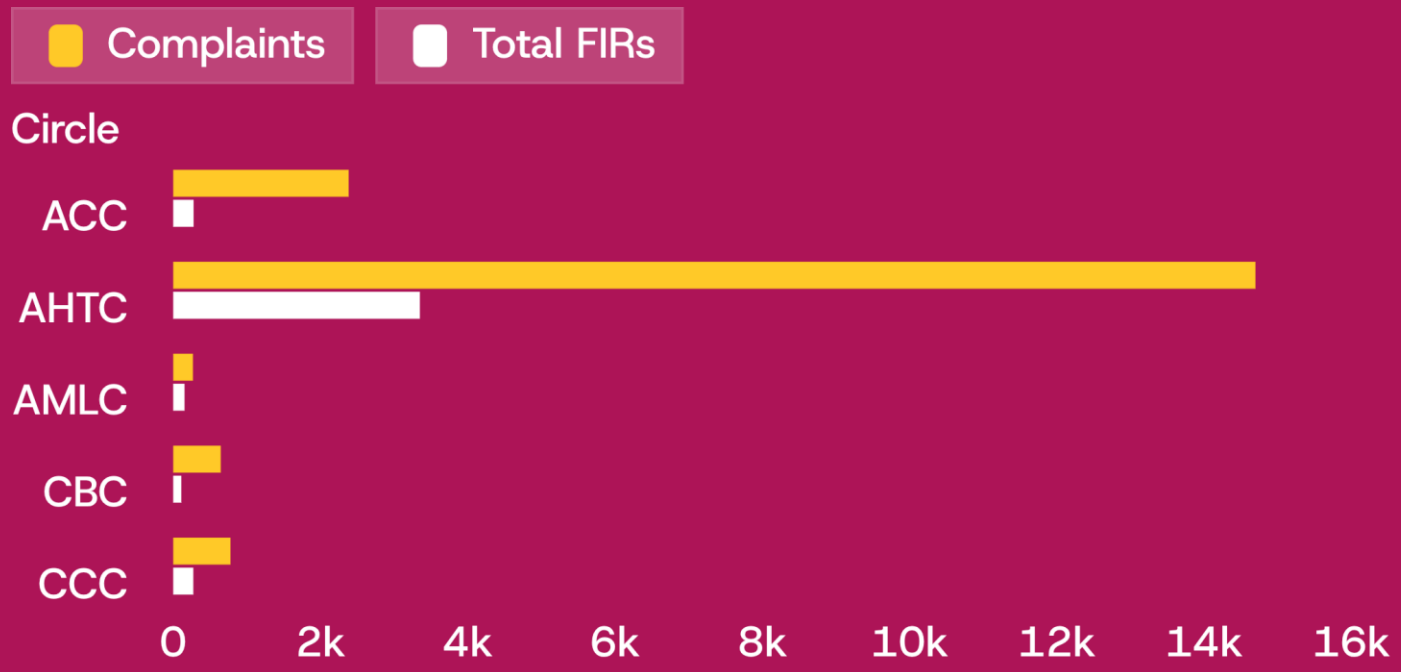

Cases pending over six months

1,437 of 3,003 cases; 781 of 937 proclaimed offenders not arrested

Source: Management review data, 28 October 2026. Detail in Appendices 1 to 9.

Made with GAMMA

AHTC carries most of the workload

AHTC SHARE

78%

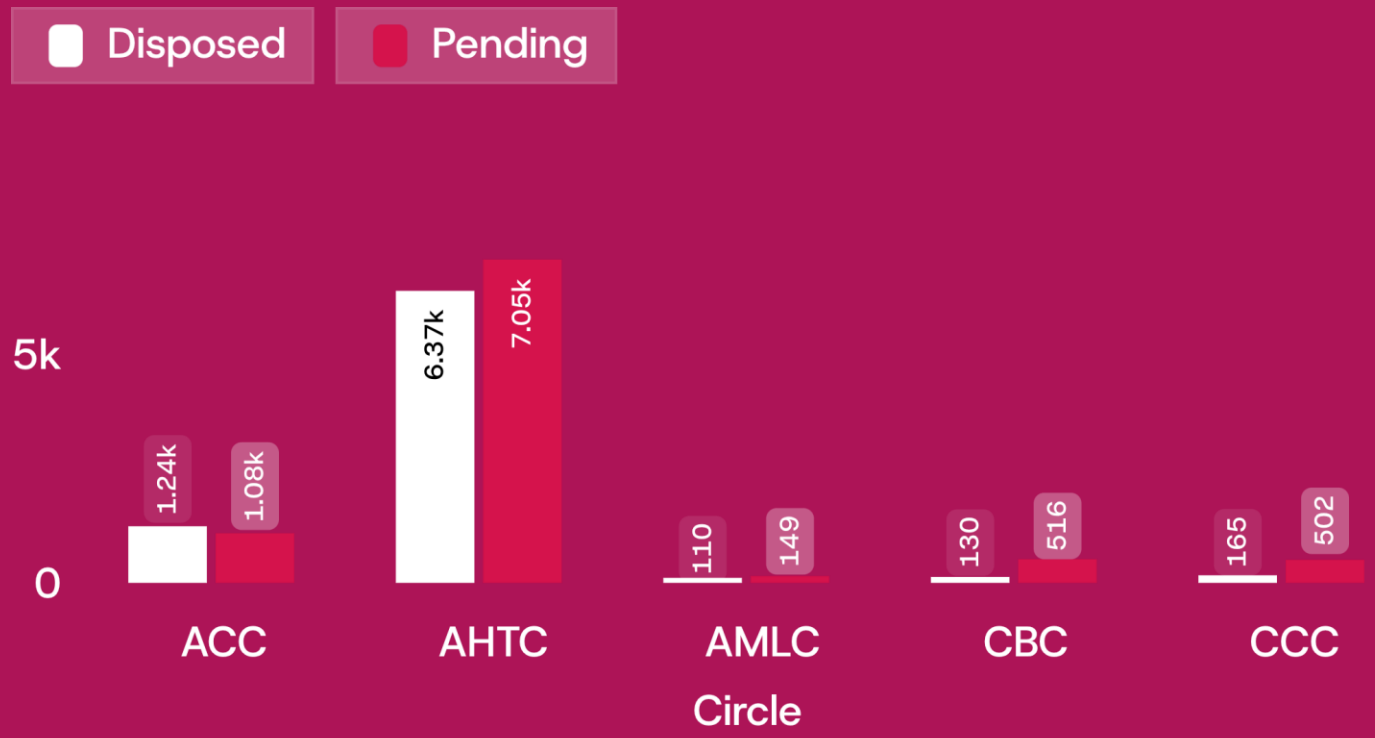

14,699 of 18,774 complaints

AHTC also carries 3,350 of 4,164 FIRs, or 80%.

Source: Management review data, 28 October 2026

Made with GAMMA

Half of all complaints are already disposed

OVERALL DISPOSITION

9,302

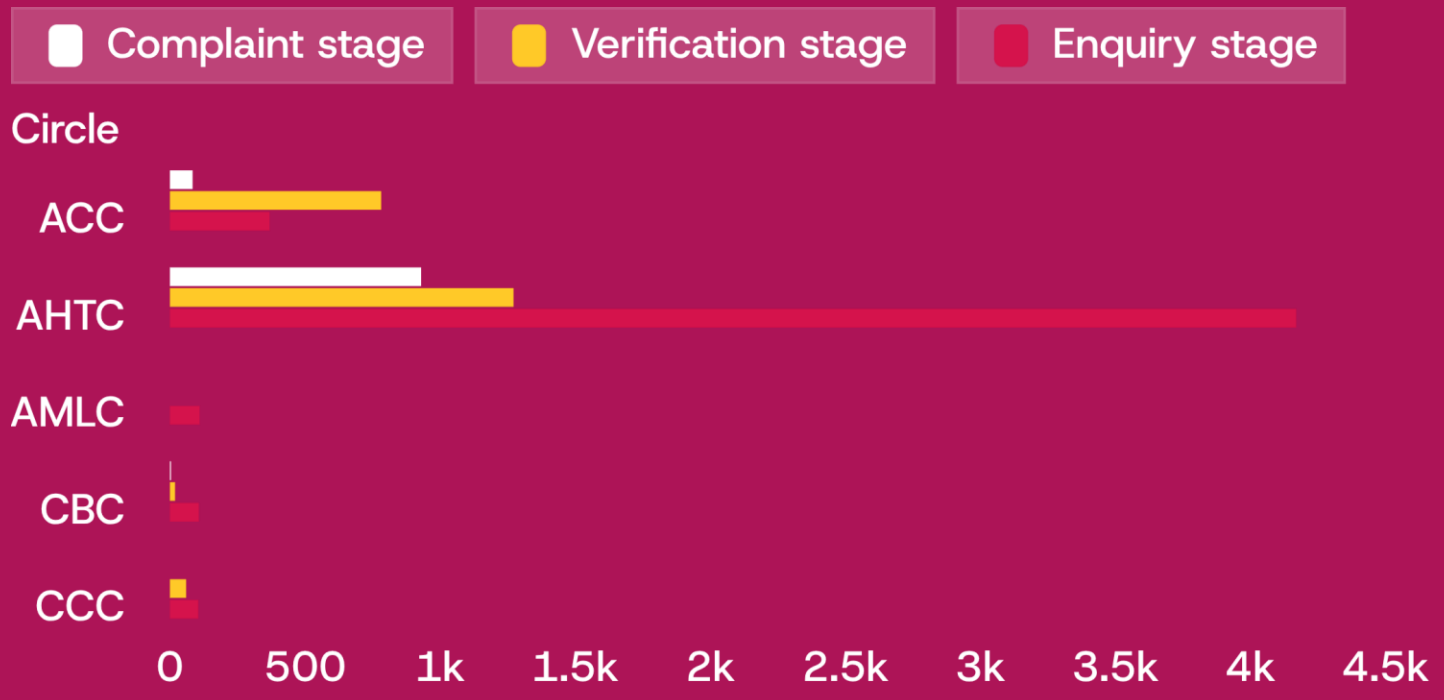

complaints disposed

50% of the total. 8,011 remain in complaint, verification, or enquiry stages.

Source: Management review data, 28 October 2026

Made with GAMMA

Enquiry is the main bottleneck in the pending pipeline

PENDING COMPLAINTS

61%

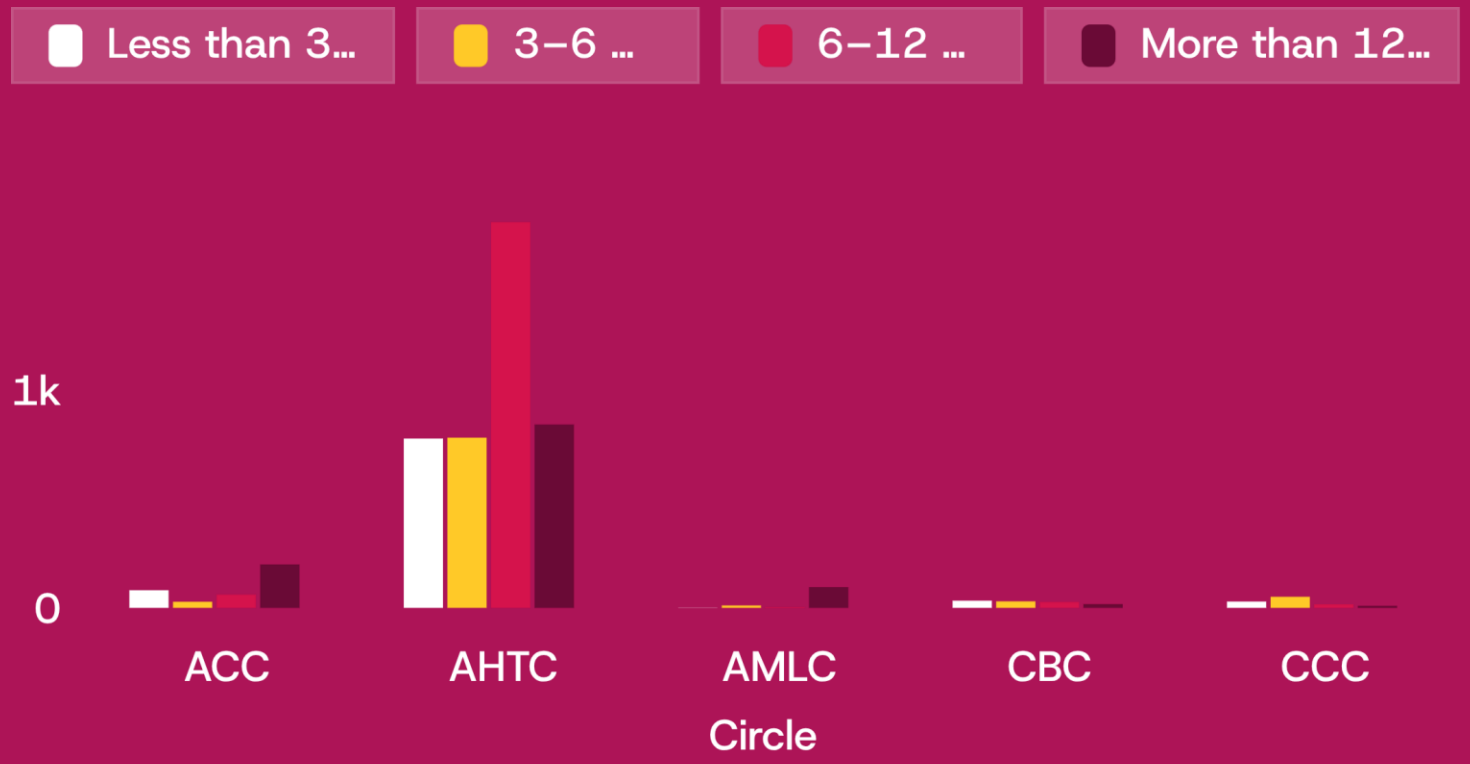

4,860 of 8,011 are at enquiry stage.

Verification holds 27%; complaint stage holds 13%.

Source: Management review data, 28 October 2026

Made with GAMMA

Older enquiries are concentrated in ACC and AMLC

MORE THAN 12 MONTHS

1,161

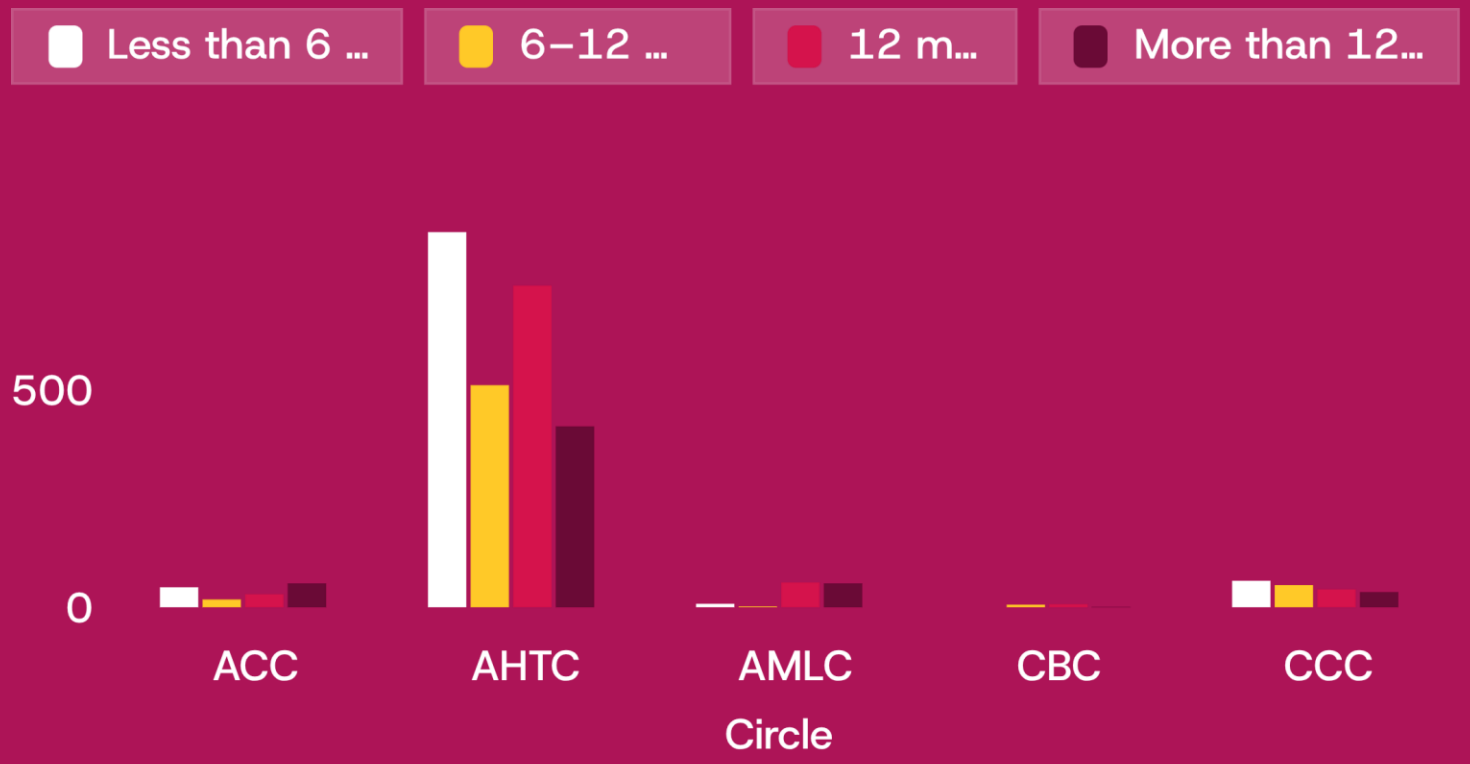

enquiries, or 24% of all enquiries

54% of ACC's enquiry backlog and 87% of AMLC's are older than 12 months.

Source: Management review data, 28 October 2026

Made with GAMMA

Cases pending beyond six months make up nearly half the total

AGING EXPOSURE

48%

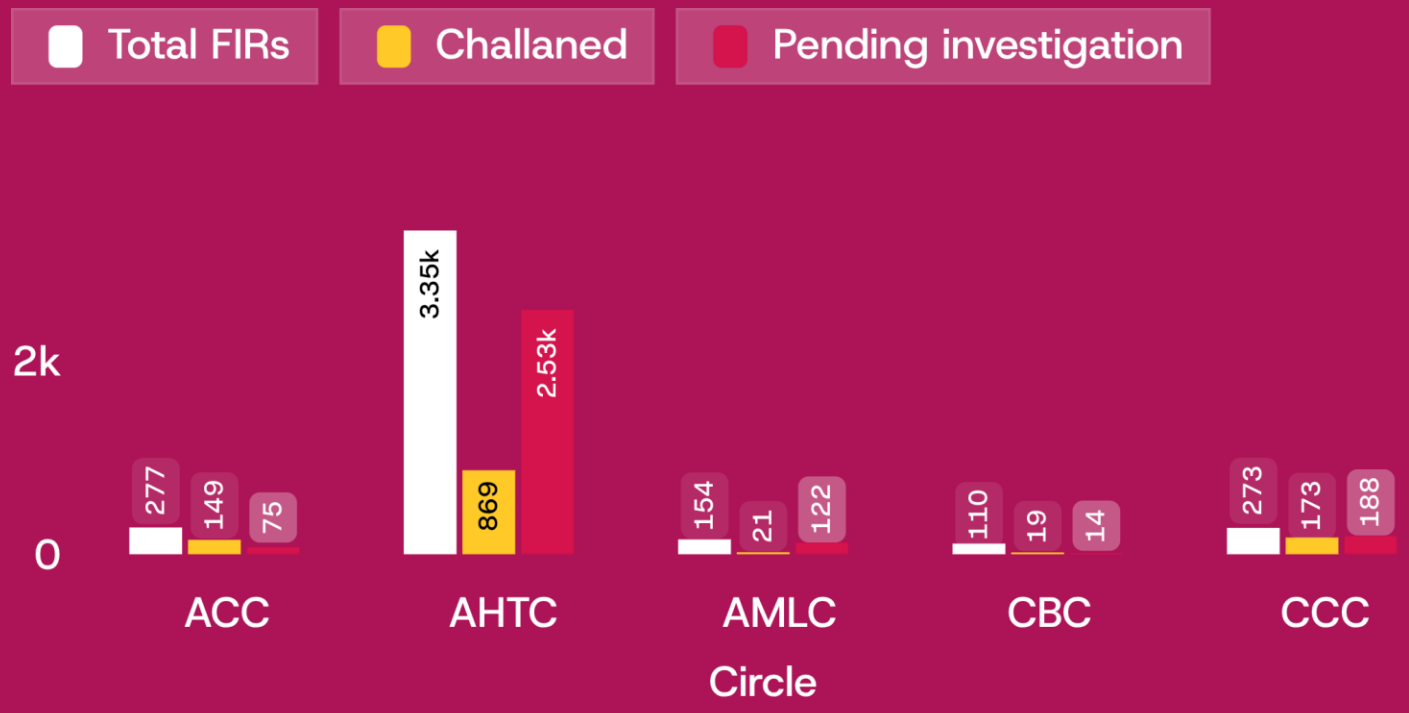

1,437 of 3,003 cases are at least six months old.

AMLC is highest: 102 of 122 cases are at least six months old.

Source: Management review data, 28 October 2026

Made with GAMMA

FIR progress is strong in some circles, but the overall pending load is high

FIR STATUS

3,003

pending investigation, 72% of 4,164 FIRs

CCC has the highest challan rate at 63%; AHTC has 2,530 pending investigations.

Source: Management review data, 28 October 2026

Made with GAMMA

Proclaimed offenders remain predominantly unarrested

OVERALL STATUS

83%

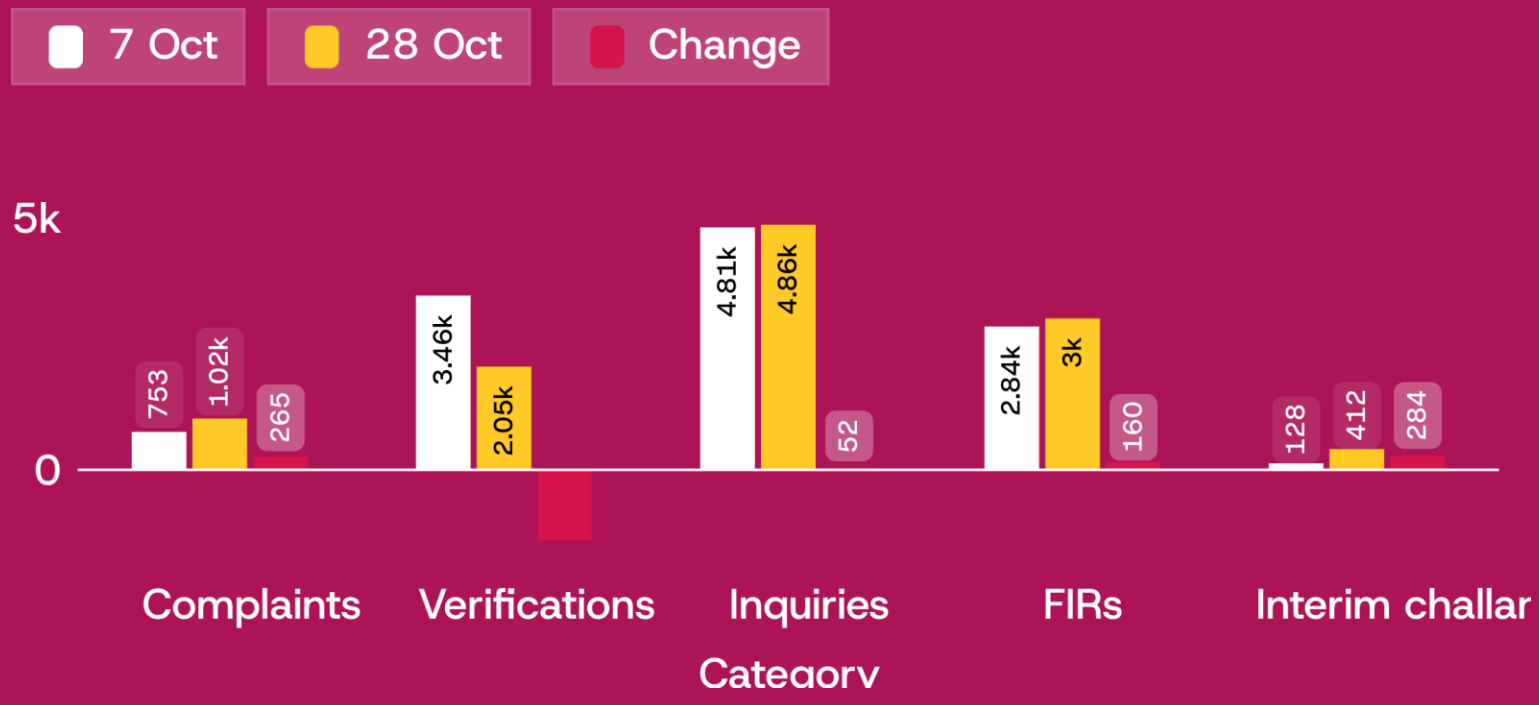

781 of 937 remain not arrested.

156 are arrested or traced. AHTC has the largest total at 436.

Source: Management review data, 28 October 2026

Made with GAMMA

October movement: verification fell, while complaints and FIRs rose

28 OCTOBER SNAPSHOT

−1,409

pending verifications

+265 complaints

+160 FIRs

Interim challans increased by 284, from 128 to 412.

Source: Management review data, 7 October and 28 October 2026

Made with GAMMA

Three management priorities emerge from the data

01

Attack the enquiry backlog first

Use an aging-based plan for ACC, AMLC, and AHTC.

02

Protect the verification improvement

Prevent new complaints from rolling forward.

03

Separate volume and aging targets

AHTC needs throughput; ACC and AMLC need aged-case clearance.

Use the next review to track new intake, aged clearances, enquiry conversion, and FIR investigation movement.
